

Course Material Digitisation

The Library now provides a digitisation service to teaching staff whereby scanned copies of book chapters or journal articles from the Library's holdings can be made available to students on Blackboard. The library undertakes to digitise material which isn't available in an electronic format and to make it available as a PDF in Blackboard.

This can be done in accordance with the Irish Copyright Licensing Agency Higher Education Licence ([ICLA HE License](#)). In simple terms usually no more than one chapter per book can be scanned and the material can only be made available through Blackboard. Please see the Full Terms and Conditions below.

In order to avail of this service please contact your subject support staff (<http://www.library.nuigalway.ie/support/subjectsupport/>) or contact readinglists@nuigalway.ie.

Any request should include full bibliographic details of the relevant chapter and the module code of the course. Scanned material will be added to the 'Documents' section of the relevant module in Blackboard.
